EXAMINER'S AMENDMENT

Response to Arguments

1. Applicant's arguments, see Remarks page 7, filed November 20, 2006, with respect to the Objection, §112 Rejections and §103 Rejections have been fully considered and are persuasive. The objections and rejections of claims 1-3, 5-11 have been withdrawn.

Election/Restrictions

2. Claims 1 and 9 are allowable. The restriction requirement between species I-IV, as set forth in the Office action mailed on August 24, 2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 4 and 12, directed to the subject matter of the claimed invention are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 13-17, directed to species not being rejoined are withdrawn from consideration because do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. The application has been amended as follows:

Cancel claims 13-17.

Reasons for Allowance

4. Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 9 recite, inter alia, *a second section of the inductor disposed in the third portion of the second layer, the second section of the inductor coupled at a plurality of locations to the first section of the inductor.*

The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
